2)
```
class loop
{
    public static void main(String[]args)
    {
        for (int i = 1; i<=5; i++)
        {
            System.out.println(i);
        }
    }
}
```

Public class Loop

```
{
    Public static void main(String[] args)
    {
        For(int I = 1; I <= 10; i++)
        {
            System.out.println(i);
        }
    }
}
```

```java
public class Loop
{
    public static void main
        (String[] args)
    {
        for(int i = 1; i <= 5; i
            ++)
        {
            System.out.println(i);
        }
    }
}
```

Result

```
$javac Loop.java

$java -Xmx128M -Xms16M Loop
1
2
3
4
5
```
