Ans →2]   Source Code

```
import java.util.*;
class loop
{
        public static void main (String[] args)
        {
                for (int i=1 ; i<=5 ; i++)
                System.out.println(i);
        }
}
```
